

# Battery Case with Small Corner Radius

- Mass Production
- Prototype
- Development

Body

## Product Features

- A battery case that maximizes loading capacity through our advanced small-radius forming technology.

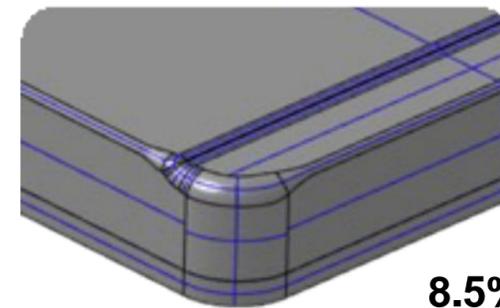

## Product Technology

Our proprietary forming technology enables significantly smaller corner radii than conventional methods.

Compatible with both **Steel** and **Aluminum** materials.

Steel

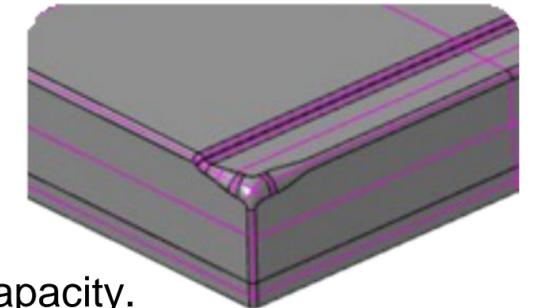

Corner Radius **R60**

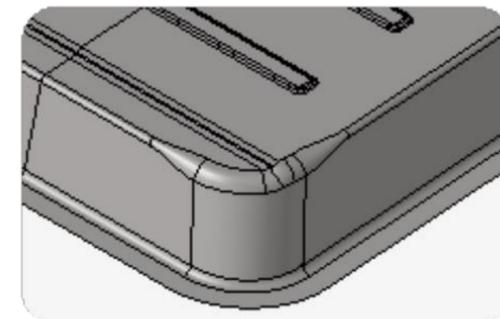

W × L: 600 × 1200

**8.5% Increase** in loading capacity.

Corner Radius **R5**

Aluminum

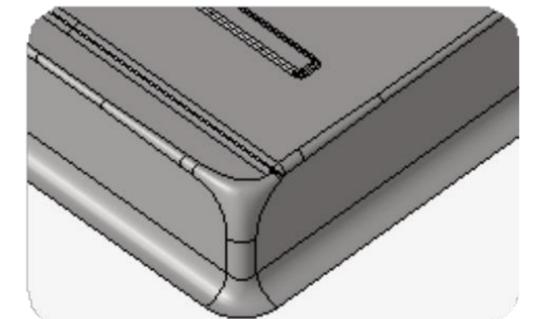

Corner Radius **R80**

W × L: 600 × 1200

**7.6% Increase** in loading capacity.

Corner Radius **R15**

Pressing Toward a Brighter Tomorrow
