

# Integrated Body Structure Component: Rear Frame

- Mass-Produced
- Prototyping Available
- Independent development

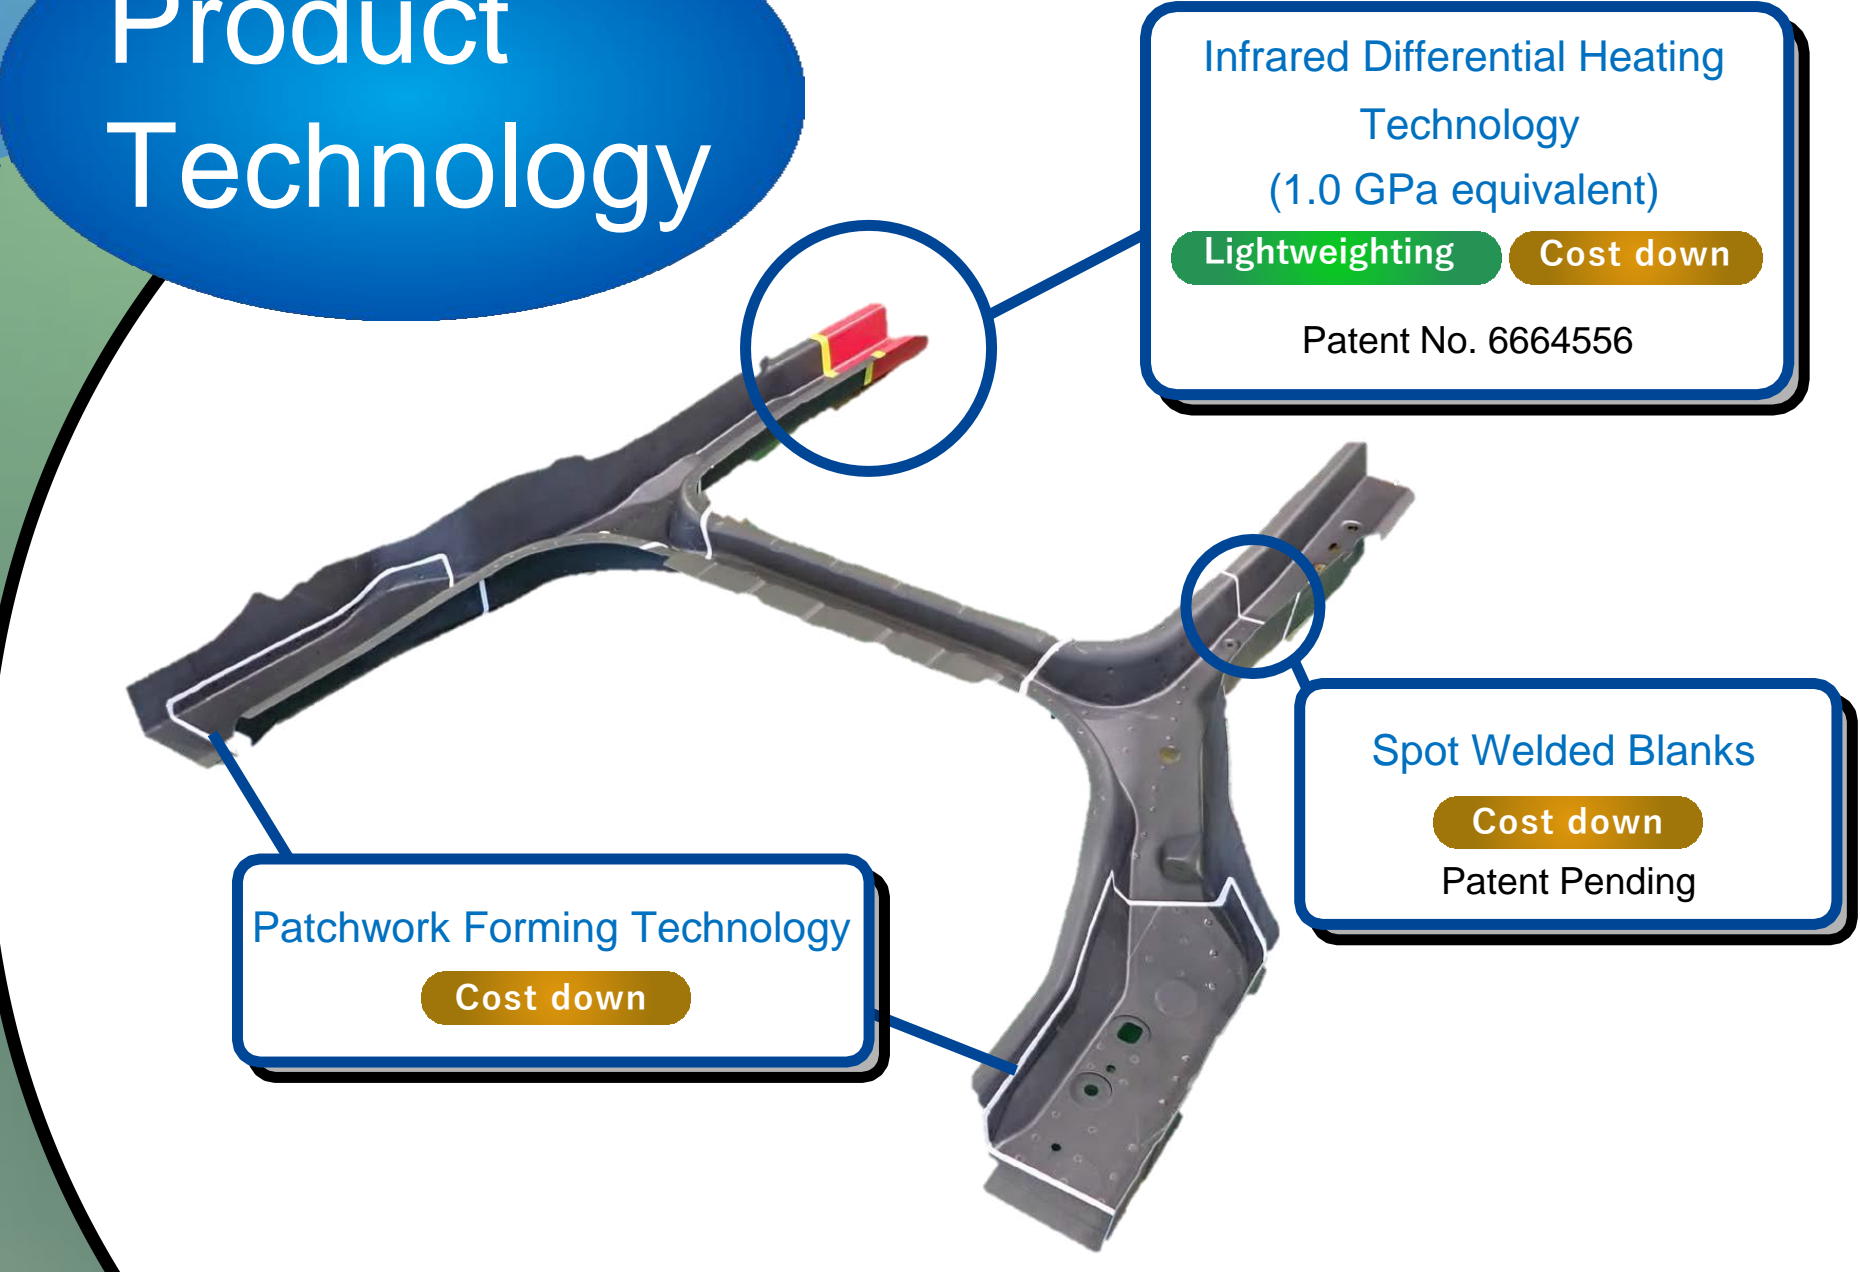

Body

## Product Features

By using hot stamping to integrally form body structure components previously composed of multiple parts, we contribute to both lightweighting and cost reduction.

## Product Technology

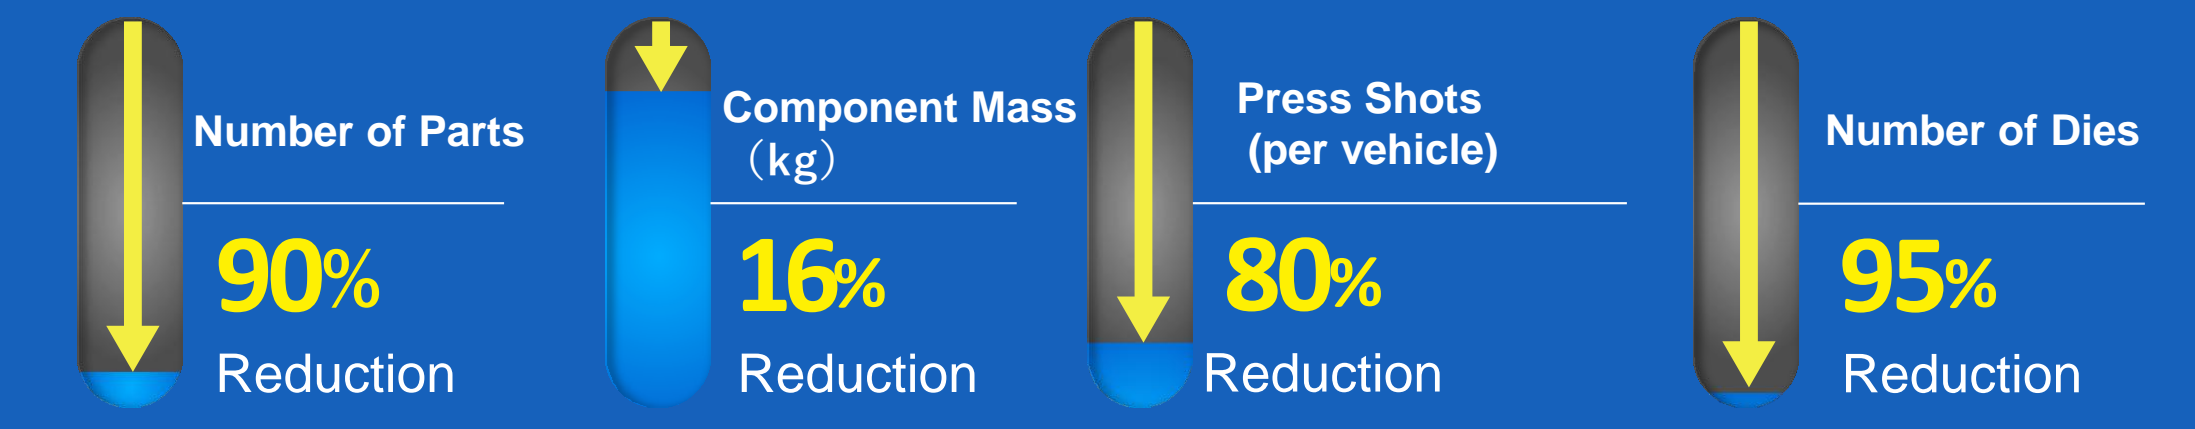

## Future Opportunities for Further Lightweighting

- Application of HOT 2.0 GPa Material
- Application of TWB Material

## Effects of Component Integration

※Note: These results are not guaranteed for all cases.

Pressing Toward a Brighter Tomorrow
