

Multi-Material Body Components

—Joining Technology—

- Mass-Produced
- Prototyping Available
- Independent development

Body

Product Features

- Multi-material body components featuring an optimized combination of aluminum die-castings, aluminum extrusions, aluminum pressed parts, and high-tensile steel.

Product Technology

Implementation of joining methods best suited for each specific material combination.

SPR (Self Piercing Rivet)

FDS (Flow Drilling Screw)

Spot Welding

Structural Adhesive

Pressing Toward a Brighter Tomorrow
