

Battery Case with Integrated Cooling Structure

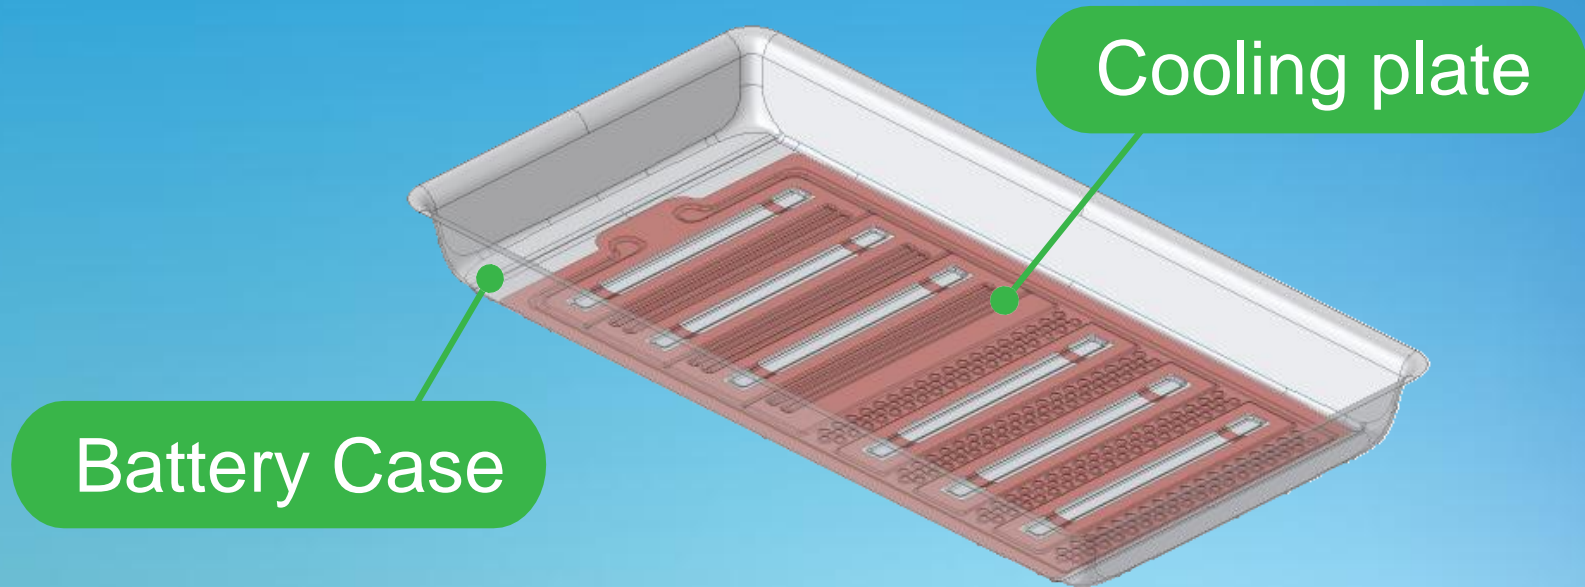

- Mass-Produced
- Prototyping Available
- Independent development

Body

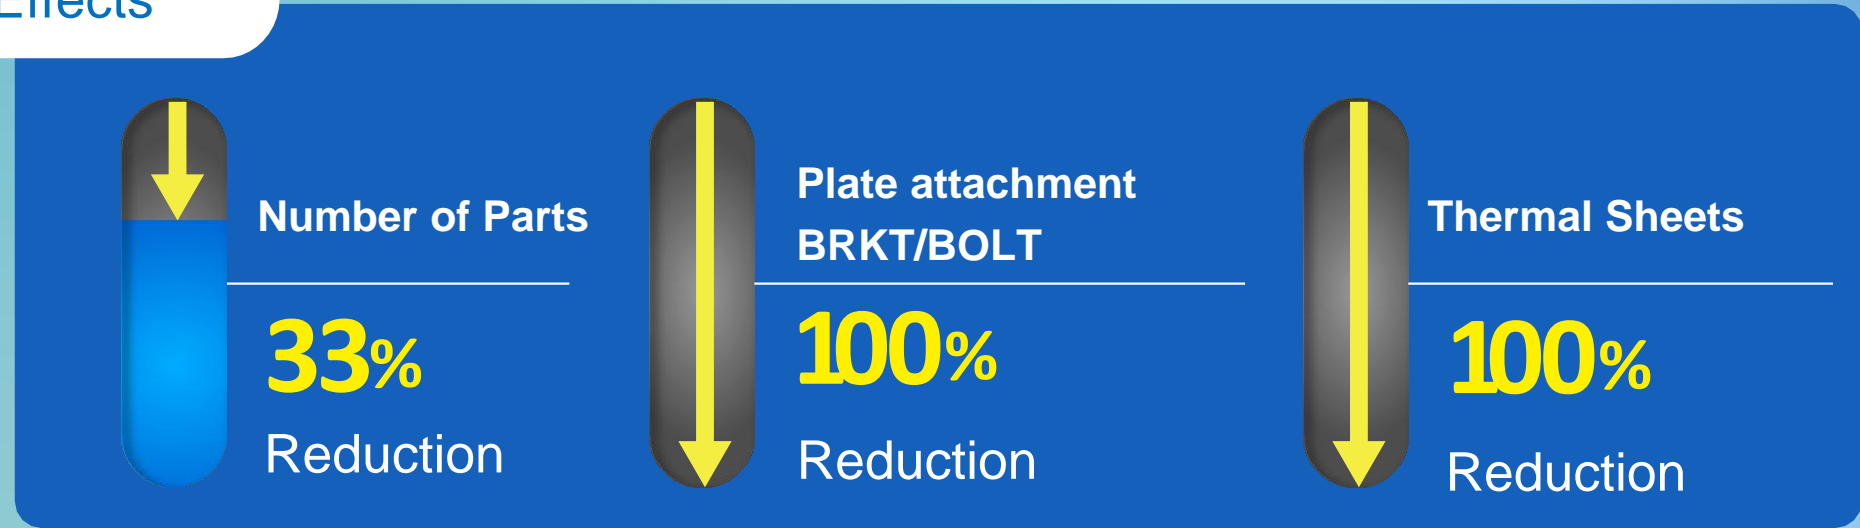

Product Features

By directly attaching the cooling plate to the battery case

- Reduction in Cooling Plate Components
- Elimination of Thermal Sheets
- Elimination of Mounting Brackets & Bolts

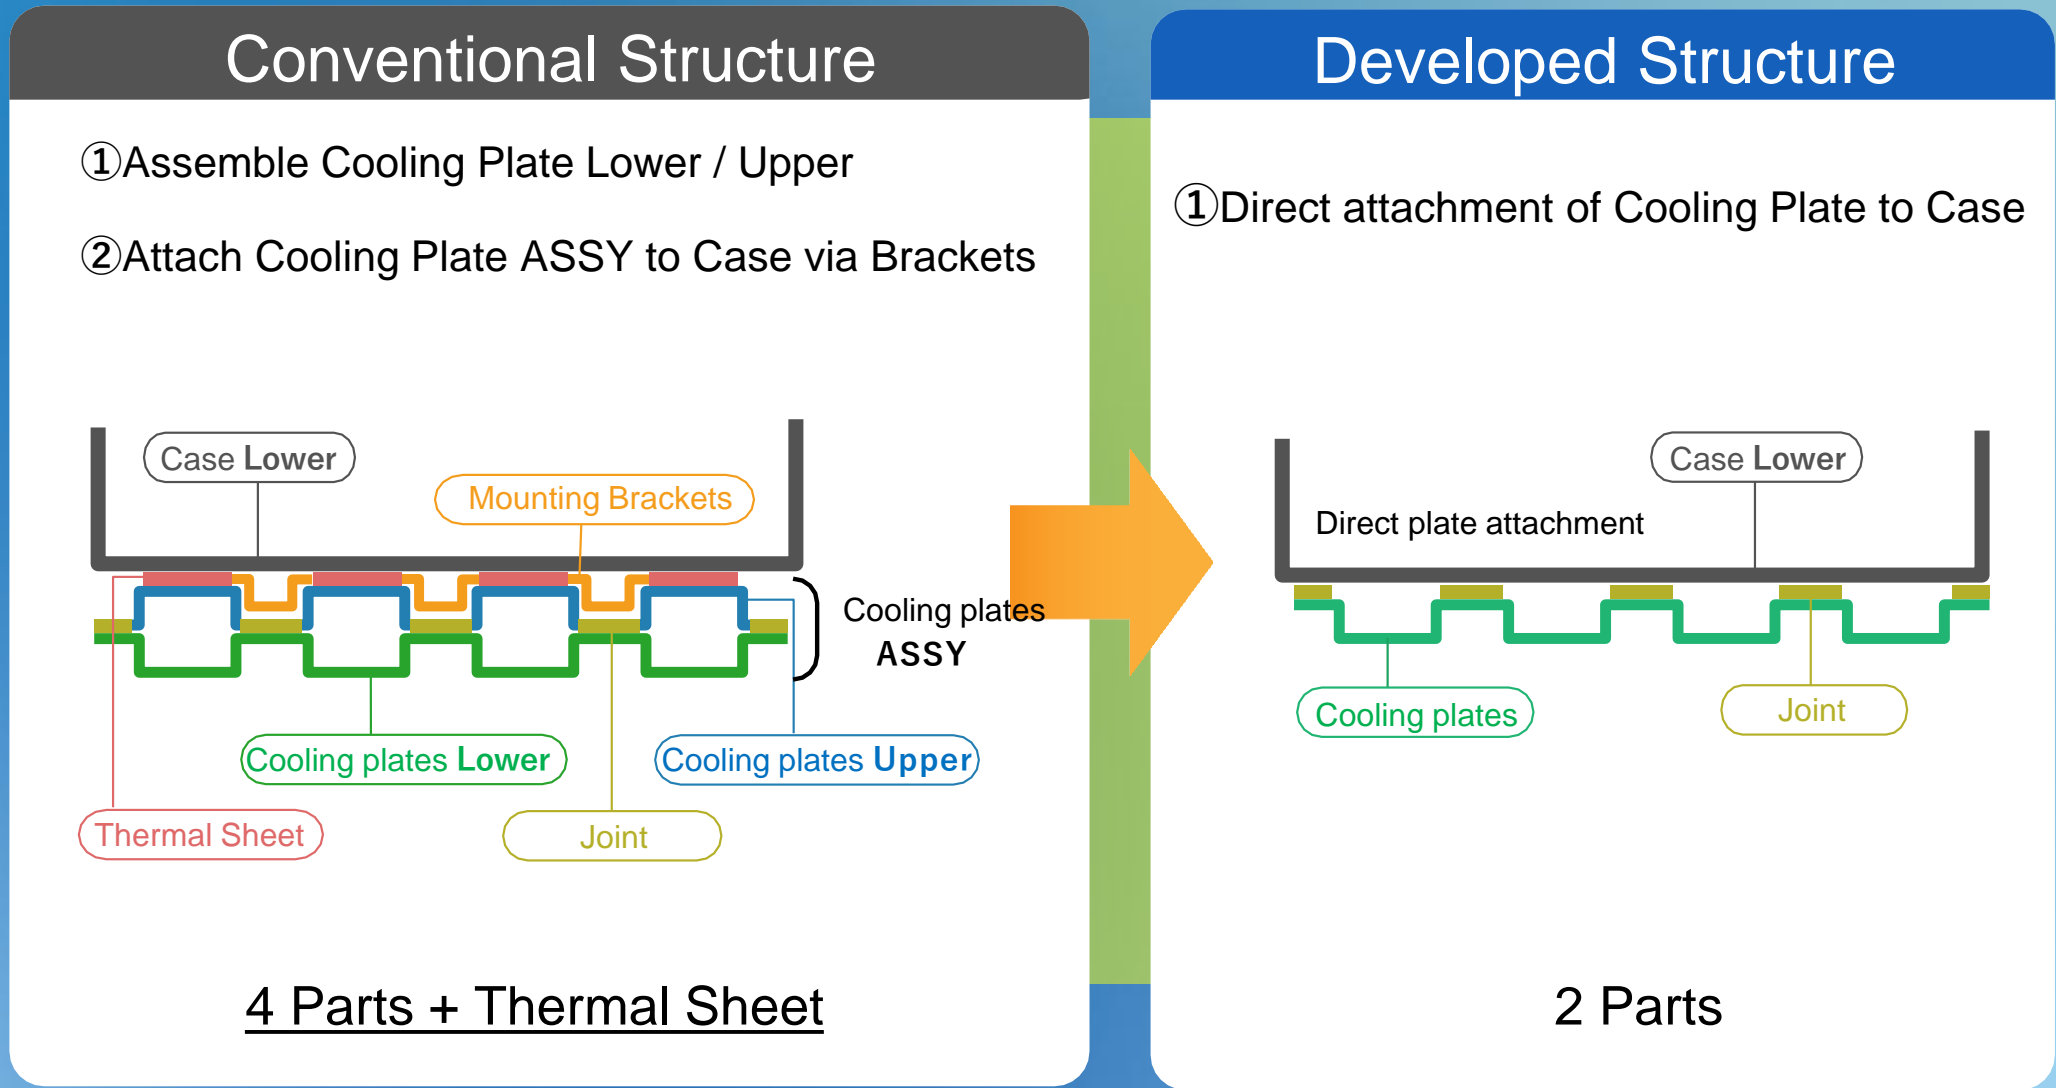

Effects

Product Technology

Streamlined Cooling Function Structure

While the conventional structure requires **two cooling plates**, our developed structure reduces this to a **single plate** by bonding it directly to the case body.

Joining Technology

Brazing, Seam Welding, Laser Welding

Pressing Toward a Brighter Tomorrow
