

High-precision shear-formed Bus bar ASSY

□ 量産
■ 試作
□ 開発

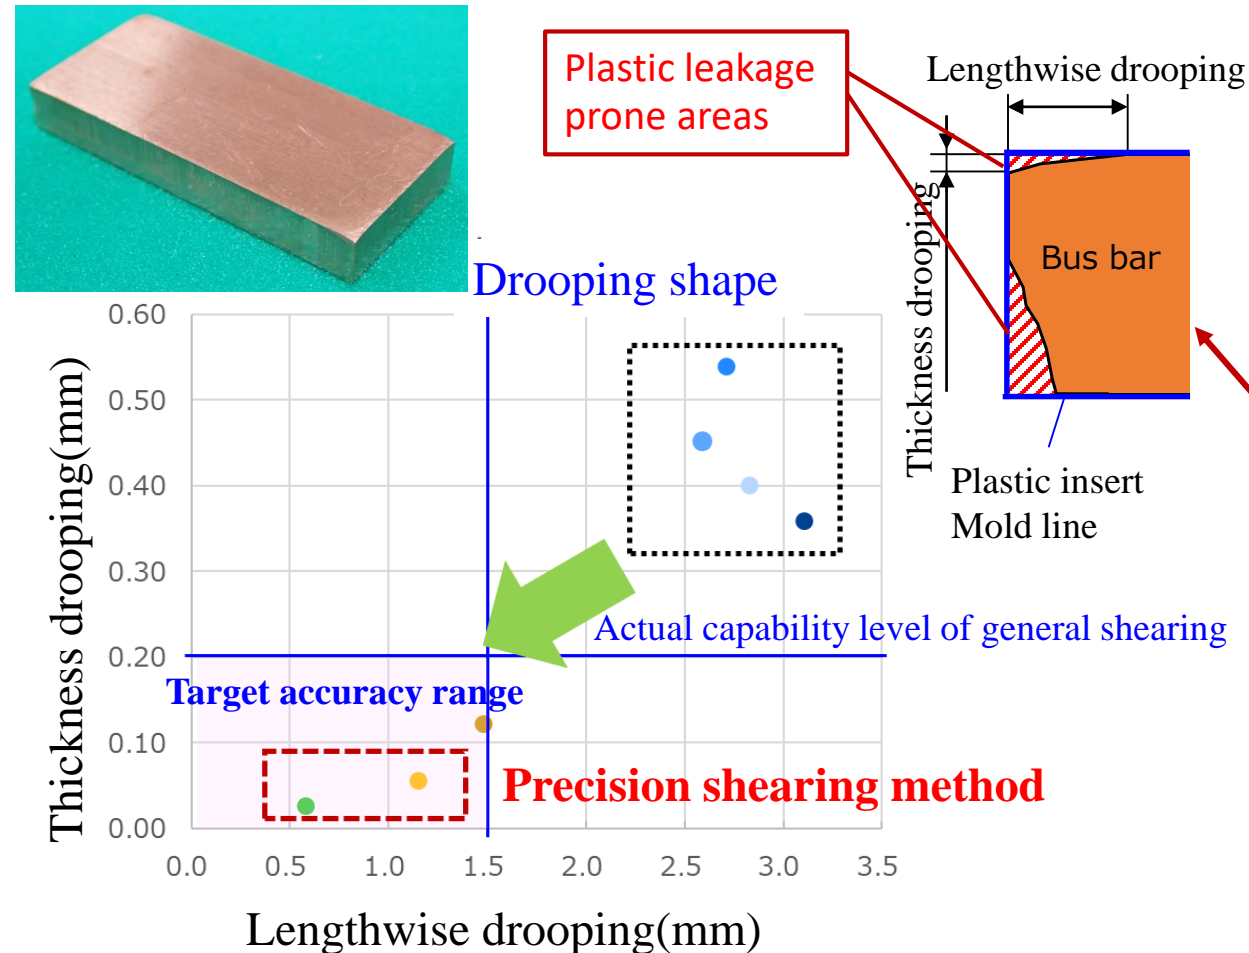

Product Features

- Improved assembly yield through high-precision forming and shearing

Product technology

- Improved shear surface accuracy reduces plastic leakage during plastic molding
- Proposal for assembly solutions incorporating insert molding and crimp joining, tailored to quality requirements.

Composition		Technology
Bus bar assembly		Insert molding
		Pressure bonding
Bus bar		Copper press forming (C1020 / C1100)
		Aluminum press forming (1000/5000/6000 Series)
	Plastic	—
