

# Integrated parts with partial soft strength

□ Production

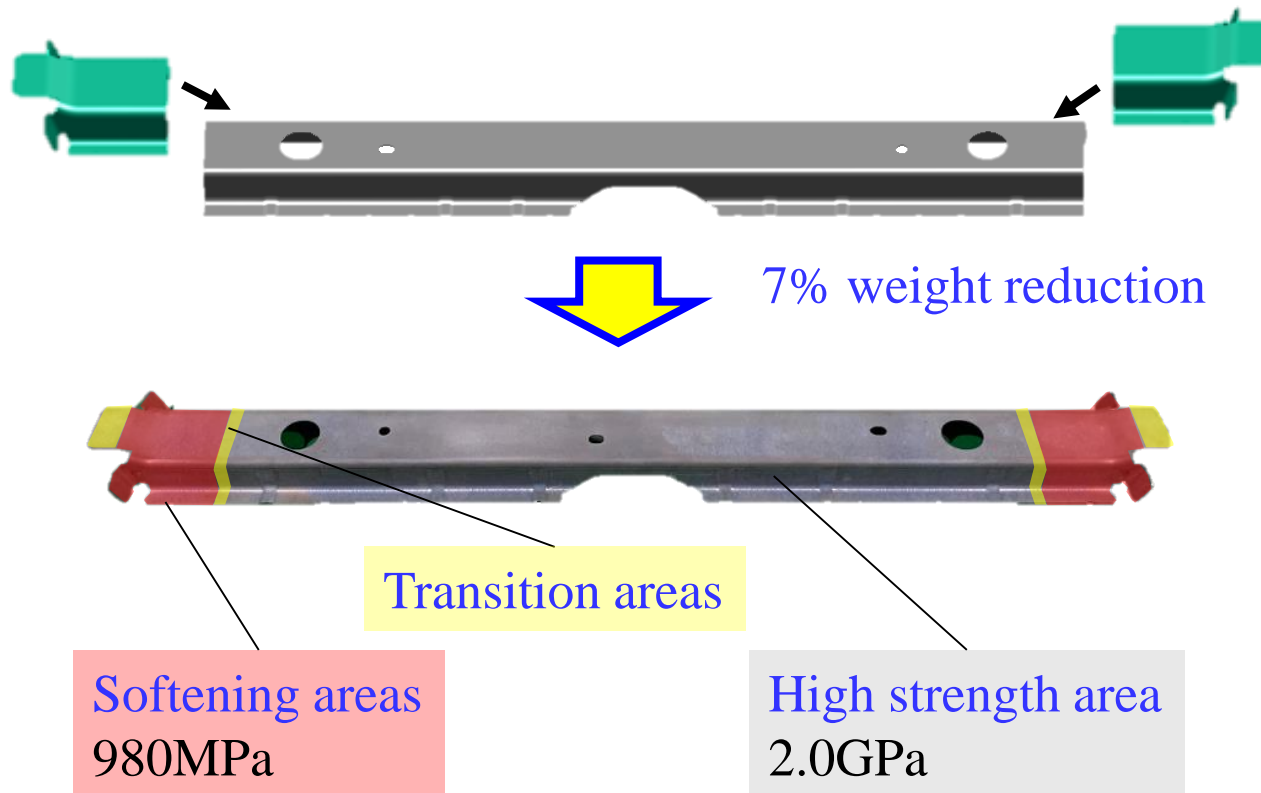

■ Prototype

□ Development

## ■ Product Features

- Integrated part with energy absorption areas (softening areas) and high strength area.

## ■ Product technology

Patent NO. JP 6664556

- Process multiple areas simultaneously in seconds by infrared heater.
- Compatible with complex shapes and softening areas 15mm or more.

【Reference example in the softening areas】

CTR PLR

- Local softening effectively improves crash performance.
