

Plastic products using CNF

□ Production

□ Prototype

■ Development

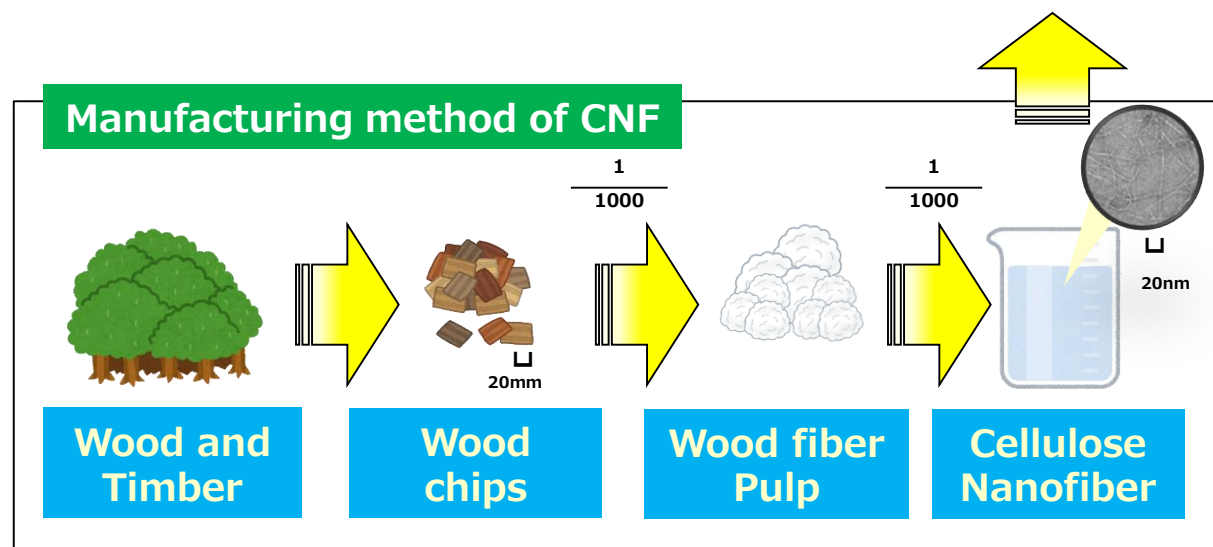

■ Product Features

- Compatible with carbon neutral.
(From oil to plants)
- Supports impact resistance,
which is the weak point of CNF.

(CNF : Cellulose Nano Fiber)

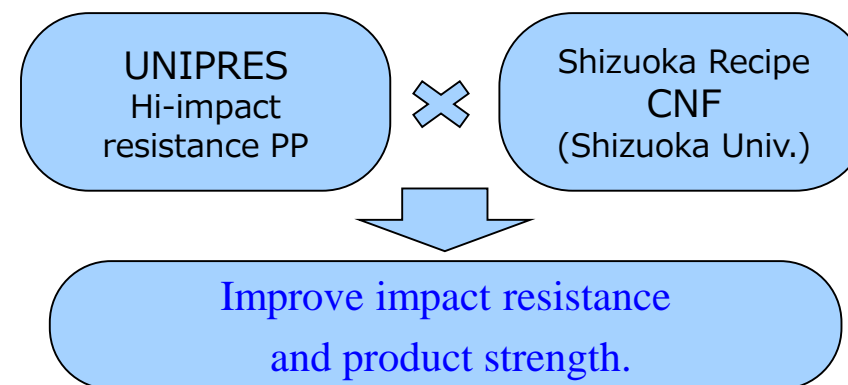

Engine under cover

■ Product technology

- Development of
Industry-academia joint development.

CNF Mixture ratio : 30%
Rigidity (Flexural modulus) \Rightarrow 1.7倍
(Compared to PP)
